COLOR BRIDGE GUIDE SET COATED & UNCOATED

ULTIMATE GUIDE TO CONVERT PANTONE COLORS TO CMYK, HTML, & RGB

SKU GP6102B

The ultimate guide for digital, print, and packaging design. See the appearance of converting a Pantone Spot Color to CMYK. Also includes RGB and HTML equivalents for each Pantone Color.

Versatility — Translate Spot Colors to CMYK, RGB, and HTML.

Eco-Friendliness — New eco-friendly ink formulation allows for coating Pantone Colors during print production to protect prints and packaging applications.

Portability — Two compact, handheld fan decks including the 224 newest colors, printed on both coated and uncoated paper.

Connectivity — Integration with Pantone Connect for Adobe Creative Cloud which allows you to take your physical Pantone Colors into your digital workflow.

With the Pantone Color Bridge Guide Set, everyone around the world can create color consistently.

Inspiration

Create designs for digital, animation, and packaging when CMYK process printing is required.

Creation

Easy on-the-go reference provides a visual representation for Pantone Spot Colors translated to CMYK.

Production

CMYK translation enable process color matching of Pantone Spot Colors.
